

Introducing PursaLite™ for people on the go!

Enrich Your Life Naturally With,

 **PURSA LITE™**
Stir and Taste The Difference

www.pursanova.com

PURSANOVA™

Liquid Conversion Technology

With a simple stir (5-10 seconds) of The Pursalite, say goodbye to bitterness and harshness and hello to an incredibly smooth and vitally improved beverage.

The Pursalite will enhance & enrich all your beverages such as:

water - juices - sport energy drinks - teas - cocoa - alcoholic drinks
coffee - soft drinks - nutritional drinks - wine - beer - soups

How Does it Work?

Through the action of resonance transfer or potential a reduction of acids and reactive oxygen species (free radicals) occur. This energy transfer produces a vitally enriched and flavorful beverage without the addition or concentration of any substance. The Pursalite is a healthy alternative that's both affordable and portable.

Directions for use: Prior to first use and periodically, wash The Pursalite thoroughly with a mild detergent and soft brush, then rinse. After each use, rinse with water to keep the stainless steel coil and mineral ores clean and sanitary. The Pursalite consists of high quality food grade stainless steel and proprietary ceramic ores of natural and organic mineral.

PURSANOVA™

Pursalite™ life just got better!
